One Letter of Access (LoA) will be proposed per Super-SIEF, i.e. one LoA for the “Al salts Super-SIEF” / “Fe salts Super-SIEF”).

Each LoA will contain the following elements:

- All the Technical Dossiers (so called IUCLID 5 files, ***BUT in html format***) of the different substances in the scope of the Super-SIEF.
- A generic CSR (in Word) covering different uses (see ReachCentrum / SharePoint website for the Excel Table) of all the substances in the scope of the Super-SIEF considered.
- A Secrecy Agreement / Declaration on honour not to misuse the Token / distribute further the information passed
- The Token for co-registering the different substances of the Super-SIEF considered.
