

Successful ReachCentrum workshop in Italy – April 2010

On behalf of CentroReach, Vincenzo Girardi, our ReachCentrum professional trainer, led a training session in Milan on 14 and 15 April 2010.

On 14 and 15 April 2010 business professionals from all over Italy attended a training session led by Vincenzo Girardi, our ReachCentrum professional trainer, on behalf of CentroReach. Attendants appreciated the openness of the training to ask questions and the methodology adopted to help them work through the examples – learning by doing.

The focus of the first day was the IUCLID 5.2 for co-registrants, followed by new features of IUCLID 5.2 and CLP notification on the second day.

In the light of the excellent session results and the amount of questions received, CentroReach, with ReachCentrum, intends to run the same session in May and in September this year for co-registrants.

For further information see the [ReachCentrum workshop and training pages](#) or the [CentroReach website](#).

About ReachCentrum

ReachCentrum is the professional services body established by Cefic, the European Chemical Industry Council, which has been designed to help companies all through the value chain to fulfill the REACH requirements. ReachCentrum provides guidance to get acquainted with the REACH requirements, managing Consortia, organising workshops and delivering in-company trainings. ReachCentrum services are available for European and non EU chemical manufacturing companies.
