

### ReachCentrum launches new service “Letter of Access Module” now available

**Brussels, 6 July 2010 – ReachCentrum is today launching the “Letter of Access Module”, a new business service allowing companies to participate in the joint submission of registration dossiers under REACH.**

“With the launch of this new system, SIEF members will be able to request in an easy and handy way access to the registration dossier, fulfilling their financial obligation and getting the required information to complete their own dossiers”, says Leo Appelman, Managing Director of ReachCentrum.

The new tool simplifies and automates the task of delivering Letters of Access to the SIEF members. Via a brand new digital invoice system, buying access to a registration dossier and the corresponding delivery of the Letter of Access will be ensured in a secured and transparent way.

The Letters of Access module is available at <http://loashop.reachcentrum.eu> on the ReachCentrum website. For more information, please click on <http://www.reachcentrum.com/EN/consortium-management/letters-of-access.aspx> or send your request to [LOA@reachcentrum.eu](mailto:LOA@reachcentrum.eu).

ReachCentrum, the Cefic subsidiary, helps industry to comply with the REACH regulation, which requires chemical companies to register those substances they manufacture or import. In the four years of its existence, ReachCentrum has gained considerable expertise in managing consortia, conducting SIEF communication, offering trainings and workshops always trying to respond to its customers’ needs to facilitate the registration process.

---

ReachCentrum is the professional services body established by Cefic, the European Chemical Industry Council, which has been designed to help companies all through the value chain to fulfill the REACH requirements. ReachCentrum provides guidance to get acquainted with the REACH requirements, managing Consortia, organising workshops and delivering in-company trainings. ReachCentrum services are available for European and non EU chemical manufacturing companies.
