

ReachCentrum Towards 2013

Lost in REACH?

- Not at all
- Sometimes
- Most of the time
- Completely
- What is REACH?

Who we are?

ReachCentrum helps chemical manufacturers and importers to comply with the REACH legislation by providing services such as consortia management, workshops, consultancy and tailored Lead Registrant support.

Our Services

Our services and support tools are designed for companies preparing dossiers either on their own or in close collaboration with other companies. This collaboration can be done in consortia or SIEF leadership teams. ReachCentrum will help to form, operate and maintain this relationship. The focus lies on meeting the REACH registration deadlines in time in the most cost efficient way.

To become acquainted with the REACH requirements, ReachCentrum organises training courses, workshops and webinars. Our events help keep you up to date with REACH, its tools and its impacts on businesses. We also provide specific consultancy and in-company training courses. Our REACH events bring you practical advice, ready to be implemented in your company.

After the first 2010 deadline, existing consortia can rely on ReachCentrum's expertise to maintain their administrative and financial part of activities throughout the remaining registration deadlines. Moreover, ReachCentrum will continue to offer services for consortium management during the following phases of Evaluation and Authorisation.

ReachCentrum brings companies together and helps them complete their dossiers within the set deadlines

What do we offer to 2013 registrants?

Our field of expertise covers different modules that can be chosen by companies in respect to their needs. These modules can be offered to Consortia, Lead Registrants, SIEF Leadership Teams, or SIEF members throughout the entire REACH period and for all its elements: Registration, Evaluation and Authorisation.

Our services include

Overall project management

- Meeting organisation
- Monitor technical service provider

Financial and data management

- Data collection within Consortium/SIEF
- Performing data cost sharing calculations
- Letter of Access and token management
- Obtaining Letters of Access from data holders
- Invoicing
- Preparation of budget

SIEF support

- Acting as contact person
- Maintenance SIEF communication platform
- Surveys
- Reporting
- Generic communication

Legal support

- REACH legal advice
- Contract advice and management
- Declarations of accession
- Legal remedies

Archiving

- Legal documents
- Minutes
- Data/studies
- Financial reports

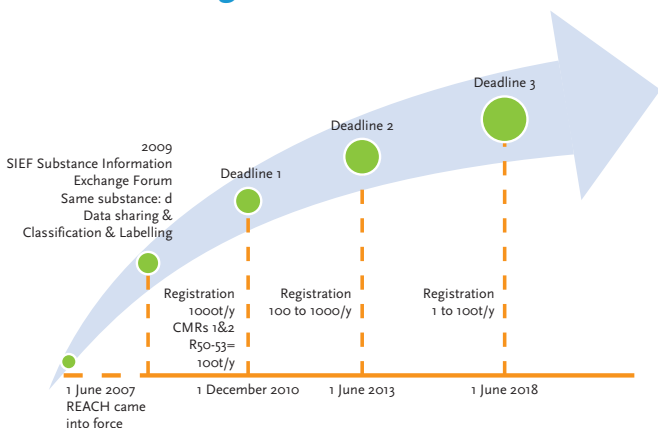

What happens after 2010?

After the first deadline of November 2010, companies still need to comply with the remaining deadlines of 2013 and 2018.

The requirements will bring new tasks and duties. Evaluation and Authorisation will have their impact.

ReachCentrum, thanks to its expertise gained in the past 4 years, is in the ideal position to help companies to meet these new challenges.
